TECHNOLOGIES
(LM 27)

*(The course is taught in
English)*

Admission requirements

Requirements to enrol in the Master's Degree Programme in Communication Engineering and Electronic Technologies are:

- To meet the curriculum requirements;
- To have a suitable personal preparation;
- To have an adequate proficiency in the teaching language; such requirement does not apply to students who are native speakers.

Specifically, we require knowledge equivalent to what is foreseen by the general educational objectives of the Bachelor's Degree – Class of Information Engineering (Class 9 of the Ministerial Decree/MD no. 509/1999 and Class 8 of Ministerial Decree no. 270/2004) to which the following **curricular and language requirements** are added:

- **having** a Bachelor's Degree, University Diploma of three years in duration, Master's Degree (Laurea Specialistica o Laurea Magistrale) with reference to MD 509/1999 or MD 270/2004, earned in Italy or equivalent qualifications;
- **having earned at least 40 ECTS credits (cfu)**, or equivalent knowledge for students having a foreign qualification, earned in any university programme (Bachelor's Degree, University Diploma of three years in duration, Master's Degree – Laurea Specialistica or Laurea Magistrale, Postgraduate Programmes – Master di primo livello and Master di secondo livello) in the scientific-disciplinary sectors indicated for the basic

educational activities in the academic disciplines of the Bachelor's Degree Programmes pertaining to the Class of Information Engineering.

- **having earned at least 60 cfu**, or equivalent knowledge for students having a foreign qualification, earned in any university programme (Bachelor's Degree, University Diploma of three years in duration, Master's Degree – Laurea Specialistica or Laurea Magistrale, Postgraduate Programmes – Master di primo livello and Master di secondo livello) in the scientific-disciplinary sectors indicated for the basic educational activities in the academic disciplines of the Bachelor's Degree Programmes pertaining to the Class of Information Engineering.
- having a good proficiency in English, equivalent to B2 or higher of the CEFR.

Please note that the aforementioned access requirements must be met at the time of submitting the application.

Assessment of technical and linguistic competence

The candidate's preparation will be assessed after verification of the existence of the curricular requirements, in the absence of which the candidate will not be considered suitable and will not be admitted to the subsequent examinations.

The candidate's technical competence will be assessed by means of a compulsory examination, consisting of an individual interview conducted in front of a dedicated board, composed of three professors belonging to the Department of Engineering for Innovation and a member representing the University Language Centre.

Competence in English language can be proven through the possession of language certification equal to or higher than B2 of the CEFR.

The linguistic certification must be attached to the application for registration for the interview; alternatively, it will require passing an interview to be taken during the entrance test according to the scheduled calendar, in the presence of the aforementioned commission

Native English candidates are exempted from producing the required certification and verification of their knowledge of English language.

Failure to pass the test for the assessment of individual preparation or the English language examination at level B2 does not allow admission. As a result of the examinations, students who have been assessed as having suitable technical and linguistic skills will be allowed to enrol.

Assessment of individual preparation: evaluation criteria.

Candidate's preparation will be evaluated with the final decision of the examination board.
